EDUCATION

Northwestern University; Evanston, IL June 2018
Bachelor of Arts, **Cognitive Neuroscience** GPA: 3.59
Minor: Asian Languages and Culture, Korean Language

Web Development Program; Northwestern University Expected October 2019
Certificate, Software Engineering
24-week training program in full-stack development dedicated to designing and building front-to-back web applications. Skills include: HTML5, CSS3, JavaScript, jQuery, Node.js, MySQL

TECHNICAL PROJECTS

LIRI-Bot

- Language Interpretation Recognition Interface that queries APIs to output 10,000+ songs, movies, and concerts
- Tools used: JavaScript, Node.js, Moment.js, JSON, Spotify API, OMDb API, BandsInTown API

Friend_Finder

- Heroku-based "friend-finder" app that analyzes real-time data to provide matches of the highest compatibility
- Tools used: Node.js, HTML, CSS, Express, JavaScript, Heroku

Undergraduate Research and Arts Exposition

; Northwestern University

- Spearheaded research project quantitatively analyzing the unconscious percepts guiding eye-movements
- Competed at annual Research Exposition and presented poster in attendance of 200+ and university judges

EXPERIENCE

Mintel; Comperemedia Summer 2019 — Present
Data & Reporting Specialist Chicago, IL

- Manage and support quantitative and qualitative custom research projects from kick-off to completion, including data cleaning, data analysis, survey programming, data visualization, and final reporting
- Analyze market data to provide actionable insights and recommendations to meet clients' business objectives

Laboratory for Human Neuroscience; Feinberg School of Medicine Fall 2018 — Spring 2019
Research Assistant Chicago, IL

- Administered repetitive transcranial magnetic stimulation and operated fMRI equipment, as well as consented and led participants through a series of psychophysiological and neurological procedures
- Regulated, monitored, and processed data in a detail-oriented manner to ensure consistent and robust quality
- Communicated and collaborated alongside research team to effectively meet safety protocol and maintain project flow, multitasking to solve and quickly respond to real-time concerns

Visual Cognition Laboratory; Northwestern University Summer 2016 — Summer 2018
Undergraduate Research Assistant Evanston, IL

- Supported lifecycle of lab operations, overseeing scheduling, testing, and data acquisition in 1000+ subject pool
- Performed multivariate statistical analysis using pivot tables, inferential statistics, and calculated computations

ACCOMPLISHMENTS

Journal of Cognition and Neuroethics; "Culture on Self-Construal: Personhood and Identity" Summer 2018
Northwestern Undergraduate Research Grant; \$3,500 Award Summer 2017

SKILLS

Technical: HTML5, CSS3, JavaScript, jQuery, Bootstrap, Node.js, MySQL, Handlebars.js, React.js, RESTful APIs, Command-line, TMS & MRI Technician

Certificate in TESOL (Teaching English as a Second Language)
